INDEX

ADLER, F. H. See McCOUCH and ADLER, 78.

Adrenin content of adrenal glands, diet and, 342.

Adrenal, cortico-, extract, carbohydrate metabolism and, 693.

—— glands, apparent prepotent function of, 701.

—— ——, diet and adrenin content of, 342.

Alcohol injections, effect of, on growth, 74.

ALLEN, W. M. Physiology of the corpus luteum. VIII. Interrelationship of oestrin and the corpus luteum as determined by their effects in the adult rabbit, 650.

Altitude, high, studies at, 487.

ANDERSON, W. E. and A. H. SMITH. Further observations of rapid growth of the albino rat, 511.

ASDELL, S. A. The effect of the injection of hypophyseal extract in advanced lactation, 137.

ASHMAN, R. See HAFKESBRING and ASHMAN, 89.

BARD, P. See ROSENBLUETH and BARD, 537.

BARNES, T. C. The significance of fibre diameter in the sensory nerves of the crustacean limb, 481.

BARRON, L. E. Reflex salivary response in dehydration, 559.

Basal metabolism of Mayas in Yucatan, 274.

BEAN, J. W. Periodic ventilation as induced by exposure to high pressures of oxygen, 192.

BENEDICT, F. G. See STEGGERDA and BENEDICT, 274.

BERNHEIM, F. and B. H. BLOCKSOM, JR. Action of epinephrine on the intestine following stimulation by parasympathetic drugs, 313.

BEST, C. H., C. M. JEPHCOTT and D. A. SCOTT. Insulin in tissues other than pancreas, 285.

——. See PROCTER and BEST, 506.

BIEBL, M., H. E. ESSEX and F. C. MANN. Studies on the physiology of the liver. XXIII. The rôle of the liver in the destruction or inactivation of nicotine, 167.

Bile, anion-cation content of, 317.

——, excretion of dye and other substances in, 433.

BISHOP, G. H. and P. HEINBECKER. A functional analysis of the cervical sympathetic nerve supply to the eye, 519.

BLOCKSOM, B. H., JR. See BERNHEIM and BLOCKSOM, 313.

Blood and tissues, transfer of bicarbonate between, 122.

—— changes associated with sweating, 328.

—— coagulability and sugar and calcium, 40.

—— observations on Indian natives of Peruvian Andes, 487.

—— pressure in man, 604.

—— sugar levels, gastro-intestinal motility and, 102.

Bone formation in thyroparathyroidectomized dogs, 262.

BOYD, T. E. Recovery of the tongue from curare paralysis, following prolonged stimulation of the hypoglossal nerve, 569.

Brain cortex, repeated electrical stimulation of, 64.

——, mid-, preparations, autonomic discharges in, 576.

BRASSFIELD, C. See GESELL, KRUEGER, NICHOLSON, BRASSFIELD and PELECOVICH, 202, 227.

Breathing, muscular afferent impulse in control of, 68.

Brinley, F. J. The effect of caffeine on the prevagus and postvagus chick hearts, 357.
Britton, S. W. and H. Silvette. Effects of cortico-adrenal extract on carbohydrate metabolism in normal animals, 693.
—— —— ——. The apparent prepotent function of the adrenal glands, 701.
——. See Silvette and Britton, 685.
Butler, V. See Garrey and Butler, 351.

Caffeine, action of, on vague fibres of chick heart, 357.
Calhoun, J. A. See Harrison, Calhoun and Harrison, 68.
Calorigenic action of lecithin, 597.
Camille, N. See Kleitman and Camille, 474.
Capillaries, lymph, in web of frog, 642.
Capillary counts in resting and active muscles, 407.
Carbohydrate metabolism, cold and, 685.
—— ——, cortico-adrenal extract and, 693.
—— ——, exhaustion and, 685.
Cardiac muscle, explanted, response of, to thyroxine, 162.
—— ——, subthreshold electrical currents and, 671.
—— output, acetylene method of determining, 587.
Cardiovascular response to posture, temperature and, 383.
Cerebrospinal fluid, effect of dislocation of, on its pressure, 246.
Cherry, I. S. and L. A. Crandall, Jr. The specificity of pancreatic lipase: Its appearance in the blood after pancreatic injury, 266.
Chronaxie, nerve-muscle, and Phi Gamma curve, 564.
Circulatory changes during radiothermia, 614.
Clark, J. H. See Weed, Flexner and Clark, 246.
Coagulation and sugar and calcium of blood, 40.
Cook, S. F. See Harmon, Ogden and Cook, 99.
Coombs, H. C. The effects of repeated electrical stimulation of the cortical motor area in the cat, 64.
Coronary artery, anterior, ventricular response to ligation of, 629.
Corpus luteum, 650.
—— —— hormone relationship, follicular-, 111.
Cowan, D. W. and H. N. Wright. The interrelationship between blood sugar, blood calcium, and blood coagulability, 40.
Crandall, L. A., Jr. See Cherry and Crandall, 266.
Curare paralysis of tongue, recovery from, effect of nerve stimulation on, 569.

Dehydration, reflex salivary response in, 559.
Diet and adrenin content of adrenal glands, 342.
Digestion and absorption of raw starch in dogs, 178.
Digestive leucocytosis question, 351.
Donelson, E. and I. G. Macy. Human milk studies. XI. Vitamin G (B_2) content of mixed milk, 420.
Dragstedt, C. A. and J. E. Kearns, Jr. Heterotopic bone formation in thyroparathyroidectomized dogs, 262.
Drinker, C. K. and M. E. Field. The lymph capillaries in the web of the frog, 642.

Electric shock, current flowing through heart in, 344.
Elhardt, W. P. The effect of methyl, propyl and butyl alcohol on the growth of white leghorn chickens, 74.
Epinephrine and parasympathetic drugs, effect of, on intestine, 313.
Essex, H. E. Studies on the physiologic action of rattlesnake venom (crotalin). XI. Effect of crotalin on swine, 339.
——. See Biebl, Essex and Mann, 167.
Evans, H. M., K. Meyer and M. E. Simpson. Relation of prolan to the anterior hypophyseal hormones, 141.

EVANS, H. M. See REICHART, PENCHARZ, SIMPSON, MEYER and EVANS, 157.
Exercise, changes of muscle glycogen with, 506.
Eye, extraocular reflexes, 78.
——, sympathetic nerve supply to, 519.

FASTING, effect of, on activity of skeletal muscle, 241.
Fatigue and permeability of muscle, 447.
——, muscular, ion effects on, 452.
Fetal membranes, permeability of, 21.
FEVOLD, H. L. See LEONARD, HISAW and FEVOLD, 111.
FIELD, M. E. See DRINKER and FIELD, 642.
FLEXNER, L. B. See WEED, FLEXNER and CLARK, 246.
Follicular-corpus luteum hormone relationship, 111.

GALL-BLADDER function, 317.
—— —— ——, liver and, 433.
—— ——, rabbit, activity of, and cholecystokinin, 594.
GARREY, W. E. and V. BUTLER. The digestive leucocytosis question, 351.
Gastric acidity in fetal and newborn rats, 394.
Gastro-intestinal motility and blood sugar levels, 102.
GAYET, R. See ROSENBLUETH and GAYET, 342.
GELLHORN, E. Further studies in muscle fatigue and permeability, 447.
——. Ion effects on muscular fatigue and their independence of changes in the metabolism of muscles, 452.
—— and D. NORTHUP. Does physiological excitation influence permeability in striated muscle?, 173.
GESELL, R., H. KRUEGER, H. NICHOLSON, C. BRASSFIELD and M. PELECOVICH. A comparison of the response of the anesthetized dog to intravenous administration of sodium cyanide during uniform artificial ventilation and during normally controlled ventilation with additional observations on the effects of methylene blue, 227.
GESELL, R., H. KRUEGER, H. NICHOLSON, C. BRASSFIELD and M. PELECOVICH. A comparison of the response of the anesthetized dog to lowered alveolar oxygen during uniform artificial ventilation and during normally controlled ventilation, 202.
GILSON, A. S., JR. Vagal depression of the turtle atrium, 459.
—— and H. B. PEUGNET. The effects upon cardiac musculature of subthreshold electrical currents, 671.
Glomerular filtrate, measurement of, by sugars, 301.
Glycogen, muscle, changes in, with physical training, 506.
GOODMAN, L. Effect of total absence of function on the optic system of rabbits, 46.
GREGG, D. E. The calorigenic action of lecithin, 597.
Growth, effect of alcohol injections on, 74.
—— of albino rat, 511.
—— of mammalian tissues after sympathetic denervation, 295.

HAFKESBRING, R. and R. ASHMAN. Pulse wave velocities in ninety subjects, 89.
HALLARAN, W. R. See QUIGLEY and HALLARAN, 102.
HALPERT, B. and M. T. HANKE. Some phases of liver and gall-bladder function, 433.
HAMILTON, J. E., J. S. LICHTY and W. R. PITTS. Cardiovascular response of healthy young men to postural variations at varied temperatures, 383.
HAMILTON, W. F., M. C. SPRADLIN and H. G. SAAM, JR. An inquiry into the basis of the acetylene method of determining the cardiac output, 587.
HANKE, M. T. See HALPERT and HANKE, 433.
HARMON, I. W., E. OGDEN and S. F. COOK. The reservoir function of the spleen in fowls, 99.
HARNE, O. G. A study of the excised uterus of the rat, its volume displacement and irritability to pituitrin with reference to the oestrous cycle, 331.

Harrison, T. R., W. G. Harrison, Jr. and J. P. Marsh. Reflex stimulation of respiration from increase in venous pressure, 417.
——. See Harrison, Calhoun and Harrison, 68.
Harrison, W. G., Jr., J. A. Calhoun and T. R. Harrison. Afferent impulses as a cause of increased ventilation during muscular exercise, 68.
——. See Harrison, Harrison and Marsh, 417.
Haterius, H. O. See Herren and Haterius, 533.
Heart, chick, action of caffeine of vagus fibres of, 357.
—— in electric shock, current flowing through, 344.
—— muscle, subthreshold electrical currents and, 671.
Heinbecker, P. See Bishop and Heinbecker, 519.
Herren, R. Y. and H. O. Haterius. On the mechanism of certain ovarian hormonal influences on the central nervous system, 533.
Hilding, A. The physiology of drainage of nasal mucus. III. Experimental work on the accessory sinuses, 664.
Hines, H. M. See Leese, Hines and Jordan, 241.
Hisaw, F. L. See Leonard, Hisaw and Fevold, 111.
Hooker, D. R. See Kouwenhoven, Hooker and Langworthy, 344.
Hormone influence on central nervous system, 533.
Hurtado, A. Studies at high altitude, 487.
Hypophyseal extract in advanced lactation, 137.
—— hormones, anterior, prolan and, 141.
Hypophysectomized animals, prolan in, 157.
Hypophysis and ovaries, relation of, to uterine bleeding, 8.

Insulin, influence of, on motility of urinary bladder, 1.
Insulin, in tissues other than the pancreas, 285.
Intestine, effect of epinephrine and parasympathetic drugs on, 313.
——, large, motor activity of, 362.
Ion effects on muscular fatigue, 452.

Jasper, H. and T. Perkins. Nerve-muscle chronaxie measurements and the Phi Gamma curve, 564.
Jephcott, C. M. See Best, Jephcott and Scott, 285.
Johnston, C. G. See Ravdin, Johnston, Riegel and Wright, 317.
Jolliffe, N., J. A. Shannon and H. W. Smith. The excretion of urine in the dog. III. The use of non-metabolized sugars in the measurement of the glomerular filtrate, 301.
Jordan, D. P. See Leese, Hines and Jordan, 241.

Kearns, J. E., Jr. See Dragstedt and Kearns, 262.
Keller, A. D. Autonomic discharges elicited by physiological stimuli in mid-brain preparations, 576.
Kidney tissue, relation of urea excretion to mass of, 402.
Kleitman, N. and N. Camille. Studies on the physiology of sleep. VI. The behavior of decorticated dogs, 474.
Kouwenhoven, W. B., D. R. Hooker and O. R. Langworthy. The current flowing through the heart under conditions of electric shock, 344.
Krueger, H. See Gesell, Krueger, Nicholson, Brassfield and Pelecovich, 202, 227.

Lactation, advanced, hypophyseal extract in, 137.
Langworthy, O. R. See Kouwenhoven, Hooker and Langworthy, 344.
Lawson, H. and R. D. Templeton. Studies in the motor activity of the large intestine. III. The longitudinal and circular acivity of the distal colon, 362.

Lecithin, calorigenic action of, 597.
Leese, C. E., H. M. Hines and D. P. Jordan. The effect of fasting upon the activity of skeletal muscle, 241.
Lell, W. A., K. E. Liber and F. F. Snyder. A quantitative study of placental transmission and the permeability of fetal membranes at various stages of pregnancy, 21.
Leonard, S. L., F. L. Hisaw and H. L. Fevold. Further studies of the follicular-corpus luteum hormone relationship in the rabbit, 111.
Leucocytosis question, digestive, 351.
Liber, K. E. See Lell, Liber and Snyder, 21.
Lichty, J. S. See Hamilton, Lichty and Pitts, 383.
Lindquist, J. L. The influence of insulin on the motility of the urinary bladder (dog), 1.
Lipase, pancreatic, specificity of, 266.
Liver and gall-bladder function, 433.
——, physiology of, 167.
——, rôle of, in destruction of nicotine, 167.
Lloyd, R. W. See Manville and Lloyd, 394.
Lungs, vital capacity of, at low barometric pressure, 426.
Lymph capillaries in web of frog, 642.

MacKay, E. M. A comparison of the relation between the rate of urea excretion and the amount of renal tissue in the dog and other mammals, 402.
McCouch, G. P. and F. H. Adler. Extraocular reflexes, 78.
Macy, I. G. See Donelson and Macy, 420.
Maltby, A. B. and C. J. Wiggers. Studies on human blood pressure criteria and methods. I. The effects of partial and complete occlusion on actual pressures in compressed arteries, 604.
Mann, F. C. See Biebl, Essex and Mann, 167.
Manville, I. A. and R. W. Lloyd. The hydrogen ion concentration of the gastric juice of fetal and newborn white rats, 394.
Markee, J. E. An analysis of the rhythmic vascular changes in the uterus of the rabbit, 374.
——. Rhythmic vascular uterine changes, 32.
Markowitz, C. and W. M. Yater. Response of explanted cardiac muscle to thyroxine, 162.
Marsh, J. P. See Harrison, Harrison and Marsh, 417.
Martin, E. G., E. C. Woolley and M. Miller. Capillary counts in resting and active muscle, 407.
Martin, S. J. The effect of complete suprarenalectomy on the oestrual cycle of the white rat with reference to suprarenal-pituitary relationship, 180.
Mayas in Yucatan, basal metabolism of, 274.
Messer, A. C. See Shaw and Messer, 122.
Metabolism, basal, of Mayas in Yucatan, 274.
——, carbohydrate, cortico-adrenal extract and, 693.
——, ——, effects of exhaustion and cold on, 685.
Meyer, K. See Evans, Meyer and Simpson, 141.
——. See Reichert, Pencharz, Simpson, Meyer and Evans, 157.
Milk, human, vitamin G in, 420.
Miller, M. See Martin, Woolley and Miller, 407.
Muscle fatigue and permeability, 447.
—— glycogen, changes in, with physical training, 506.
——, heart, subthreshold electrical currents and, 671.
——, skeletal, effect of fasting on activity of, 241.
——, striated, excitation and permeability in, 173.
Muscles, resting and active, capillary counts in, 407.
Muscular afferent impulses in control of breathing, 68.
—— fatigue, ion effects on, 452.

NERVE, crustacean, fibre diameter of, 481.
—— impulses, integration of effect of, 459.
—— muscle chronaxie and Phi Gamma curve, 564.
—— stimulation, effect of, on curarized tongue, 569.
—— supply, sympathetic, to the eye, 519.
Nervous system, central, hormone influence on, 533.
NICHOLSON, H. See GESELL, KRUEGER, NICHOLSON, BRASSFIELD and PELECOVICH, 202, 227.
Nicotine, rôle of liver in destruction of, 167.
Nictitating membrane, action of certain drugs on, 443.
—— ——, innervation and functions of, 537.
NORTHUP, D. See GELLHORN and NORTHUP, 173.

OESTRIN and corpus luteum, interrelationship of, 650.
—— excretion by women, 553.
Oestrous cycle, volume and irritability of uterus of rat in, 331.
Oestrual cycle of rat after suprarenalectomy, 180.
OGDEN, E. See HARMON, OGDEN and COOK, 99.
OLMANSON, G. See SAIKI, OLMANSON and TALBERT, 328.
Optic stimuli in rabbits, effect of lack of, 46.
ORIAS, O. The dynamic changes in the ventricles following ligation of the ramus descendens anterior, 629.
——. See WIGGERS and ORIAS, 614.
Ovaries, relation of hypophysis and, to uterine bleeding, 8.
Oxygen, lowered alveolar, and respiration, 202.
—— pressure, high, periodic respiration and, 192.

PANCREATIC lipase, specificity of, 266.
Parasympathetic drugs, effect of epinephrine and, on intestine, 313.
PATTON, J. W. See ROSEBOOM and PATTON, 178.
PELECOVICH, M. See GESELL, KRUEGER, NICHOLSON, BRASSFIELD and PELECOVICH, 202, 227.
PENCHARZ, R. I. See REICHERT, PENCHARZ, SIMPSON, MEYER and EVANS, 157.
PERKINS, T. See JASPER and PERKINS, 564.
PEUGNET, H. B. See GILSON and PEUGNET, 671.
PITTS, W. R. See HAMILTON, LICHTY and PITTS, 383.
Placental transmission, 21.
Posture, temperature and cardiovascular response to, 383.
Pregnancy-urine, action of, on uterine motility, 545.
PROCTER, H. A. and C. H. BEST. Changes in muscle glycogen accompanying physical training, 506.
Prolan and anterior hypophyseal hormones, 141.
—— in hypophysectomized animals, 157.
Pulse wave velocity, 89.

QUIGLEY, J. P. and W. R. HALLARAN. The independence of spontaneous gastro-intestinal motility and blood sugar levels, 102.

RATTLESNAKE venom (crotalin), effect of, on swine, 339.
RAVDIN, I. S., C. G. JOHNSTON, C. RIEGEL and S. L. WRIGHT, JR. Studies of gall-bladder function. VII. The anion-cation content of hepatic and gall-bladder bile, 317.
Reflexes, extraocular, 78.
REICHERT, F. L., R. I. PENCHARZ, M. E. SIMPSON, K. MEYER, and H. M. EVANS. Relative ineffectiveness of prolan in hypophysectomized animals, 157.
Respiration, lowered alveolar oxygen and, 202.
——, periodic, and high oxygen pressure, 192.

Respiration, sodium cyanide, methylene blue and, 227.
Respiratory activity and venous pressure, 417.
Reynolds, S. R. M. The action of ovary-stimulating substance of human urine of pregnancy on uterine motility in the unanesthetized rabbit, 545.
Riegel, C. See Ravdin, Johnston, Riegel and Wright, 317.
Rosenblueth, A. The action of certain drugs on the nictitating membrane, 443.
—— and P. Bard. The innervations and functions of the nictitating membrane in the cat, 537.
—— and R. Gayet. The failure of diet to influence the adrenalin content of the adrenal glands, 341.
Roseboom, B. B. and J. W. Patton. The digestion and absorption of raw starch in dogs, 178.

Saam, H. G., Jr. See Hamilton, Spradlin and Saam, 587.
Saiki, A. K., G. Olmanson and G. A. Talbert. Simultaneous study of the constituents of the sweat, urine and blood, also gastric acidity and other manifestations resulting from sweating. IX. Uric and lactic acids, 328.

Medical
Wahr

CONTENTS

No. 1. March, 1932

The Influence of Insulin on the Motility of the Urinary Bladder (Dog). *J. L. Lindquist* 1

Relation of the Hypophysis and Ovaries to Experimentally-induced Uterine Bleeding in Monkeys. *Seiichi Saiki* 8

A Quantitative Study of Placental Transmission and the Permeability of Fetal Membranes at Various Stages of Pregnancy. *William A. Lell, K. E. Liber and Franklin F. Snyder* 21

Rhythmic Vascular Uterine Changes. *J. E. Markee* 32

The Interrelationship between Blood Sugar, Blood Calcium, and Blood Coagulability. *Donald W. Cowan and Harold N. Wright* 40

Effect of Total Absence of Function on the Optic System of Rabbits. *Louis Goodman* 46

The Effects of Repeated Electrical Stimulation of the Cortical Motor Area in the Cat. *Helen C. Coombs* 64

Afferent Impulses as a Cause of Increased Ventilation during Muscular Exercise. *W. G. Harrison, Jr., J. Alfred Calhoun and T. R. Harrison* 68

The Effect of Methyl, Propyl and Butyl Alcohol on the Growth of White Leghorn Chickens. *Walter P. Elhardt* 74

Extraocular Reflexes. *G. P. McCouch and F. H. Adler* 78

Pulse Wave Velocities in Ninety Subjects. *Roberta Hafkesbring and Richard Ashman* 89

The Reservoir Function of the Spleen in Fowls. *I. W. Harmon, Eric Ogden and S. F. Cook* 99

The Independence of Spontaneous Gastro-intestinal Motility and Blood Sugar Levels. *J. P. Quigley and W. R. Hallaran* 102

Further Studies of the Follicular-Corpus Luteum Hormone Relationship in the Rabbit. *S. L. Leonard, Frederick L. Hisaw and H. L. Fevold* 111

The Transfer of Bicarbonate between the Blood and Tissues Caused by Alterations of the Carbon Dioxide Concentration in the Lungs. *Louis A. Shaw and Anne C. Messer* 122

The Effect of the Injection of Hypophyseal Extract in Advanced Lactation. *S. A. Asdell* 137

Relation of Prolan to the Anterior Hypophyseal Hormones. *Herbert M. Evans, Karl Meyer and Miriam E. Simpson* 141

Relative Infectiveness of Prolan in Hypophysectomized Animals. *F. L. Reicher., R. I. Pencharz, M. E. Simpson, K. Meyer and H. M. Evans* 157

Response of Explanted Cardiac Muscle to Thyroxine. *Cecile Markowitz and Wallace M. Yater* 162

Studies on the Physiology of the Liver. XXIII. The Rôle of the Liver in the Destruction or Inactivation of Nicotine. *Max Biebl, Hiram E. Essex and Frank C. Mann* 167

Does Physiological Excitation Influence Permeability in Striated Muscle? *Ernst Gellhorn and David Northup* 173

THE DIGESTION AND ABSORPTION OF RAW STARCH IN DOGS. *B. B. Roseboom and J. W. Patton* 178
THE EFFECT OF COMPLETE SUPRARENALECTOMY ON THE OESTRUAL CYCLE OF THE WHITE RAT WITH REFERENCE TO SUPRARENAL-PITUITARY RELATIONSHIP. *S. J. Martin* 180
PERIODIC VENTILATION AS INDUCED BY EXPOSURE TO HIGH PRESSURES OF OXYGEN. *John W. Bean* 192
A COMPARISON OF THE RESPONSE OF THE ANESTHETIZED DOG TO LOWERED ALVEOLAR OXYGEN DURING UNIFORM ARTIFICIAL VENTILATION AND DURING NORMALLY CONTROLLED VENTILATION. *Robert Gesell, Hugo Krueger, Hayden Nicholson, Charles Brassfield and Marie Pelecovich* 202
A COMPARISON OF THE RESPONSE OF THE ANESTHETIZED DOG TO INTRAVENOUS ADMINISTRATION OF SODIUM CYANIDE DURING UNIFORM ARTIFICIAL VENTILATION AND DURING NORMALLY CONTROLLED VENTILATION WITH ADDITIONAL OBSERVATIONS ON THE EFFECTS OF METHYLENE BLUE. *Robert Gesell, Hugo Krueger, Hayden Nicholson, Charles Brassfield and Marie Pelecovich* 227

No. 2. April, 1932

THE EFFECT OF FASTING UPON THE ACTIVITY OF SKELETAL MUSCLE. *C. E. Leese, H. M. Hines and D. P. Jordan* 241
THE EFFECT OF DISLOCATION OF CEREBROSPINAL FLUID UPON ITS PRESSURE. *Lewis H. Weed, Louis B. Flexner and Janet H. Clark* 246
HETEROTOPIC BONE FORMATION IN THYROPARATHYROIDECTOMIZED DOGS. *Carl A. Dragstedt and John E. Kearns, Jr.* 262
THE SPECIFICITY OF PANCREATIC LIPASE: ITS APPEARANCE IN THE BLOOD AFTER PANCREATIC INJURY. *Ian S. Cherry and Lathan A. Crandall, Jr.* 266
METABOLISM IN YUCATAN: A STUDY OF THE MAYA INDIAN. *Morris Steggerda and Francis G. Benedict* 274
INSULIN IN TISSUES OTHER THAN THE PANCREAS. *C. H. Best, C. M. Jephcott and D. A. Scott* 285
THE EFFECTS OF SYMPATHETIC DENERVATION OF MAMMALIAN TISSUES DURING THE PERIOD OF POST-NATAL GROWTH. *S. S. Tower* 295
THE EXCRETION OF URINE IN THE DOG. III. THE USE OF NON-METABOLIZED SUGARS IN THE MEASUREMENT OF THE GLOMERULAR FILTRATE. *Norman Jolliffe, James A. Shannon and Homer W. Smith* 301
ACTION OF EPINEPHRINE ON THE INTESTINE FOLLOWING STIMULATION BY PARASYMPATHETIC DRUGS. *Frederick Bernheim and Berget H. Blocksom, Jr.* 313
STUDIES OF GALL-BLADDER FUNCTION. VII. THE ANION-CATION CONTENT OF HEPATIC AND GALL-BLADDER BILE. *I. S. Ravdin, C. G. Johnston, C. Riegel and S. L. Wright, Jr.* 317
SIMULTANEOUS STUDY OF THE CONSTITUENTS OF THE SWEAT, URINE AND BLOOD, ALSO GASTRIC ACIDITY AND OTHER MANIFESTATIONS RESULTING FROM SWEATING. IX. URIC AND LACTIC ACIDS. *A. K. Saiki, G. Olmanson and G. A. Talbert* 328
A STUDY OF THE EXCISED UTERUS OF THE RAT, ITS VOLUME DISPLACEMENT AND IRRITABILITY TO PITUITRIN, WITH REFERENCE TO THE OESTROUS CYCLE. *O. G. Harne* 331
STUDIES ON THE PHYSIOLOGIC ACTION OF RATTLESNAKE VENOM (CROTALIN). XI. EFFECT OF CROTALIN ON SWINE. *Hiram E. Essex* 339
THE FAILURE OF DIET TO INFLUENCE THE ADRENIN CONTENT OF THE ADRENAL GLANDS. *Arturo Rosenblueth and René Gayet* 342

The Current Flowing through the Heart under Conditions of Electric Shock. *William B. Kouwenhoven, Donald R. Hooker and Orthello R. Langworthy*..... 344
The Digestive Leucocytosis Question. *W. E. Garrey and Virginia Butler*.. 351
The Effect of Caffeine on the Prevagus and Postvagus Chick Hearts. *Floyd J. Brinley*..... 357
Studies in the Motor Activity of the Large Intestine. III. The Longitudinal and Circular Activity of the Distal Colon. *Hampden Lawson and R. D. Templeton*..... 362
An Analysis of the Rhythmic Vascular Changes in the Uterus of the Rabbit. *J. E. Markee*..... 374
Cardiovascular Response of Healthy Young Men to Postural Variations at Varied Temperatures. *Joseph E. Hamilton, Joseph S. Lichty and William R. Pitts*..... 383
The Hydrogen Ion Concentration of the Gastric Juice of Fetal and Newborn White Rats. *Ira A. Manville and Robert W. Lloyd*..... 394
A Comparison of the Relation between the Rate of Urea Excretion and the Amount of Renal Tissue in the Dog and Other Mammals. *Eaton M. MacKay*..... 402
Capillary Counts in Resting and Active Muscle. *E. G. Martin, Eola C. Woolley and Miriam Miller*..... 407
Reflex Stimulation of Respiration from Increase in Venous Pressure. *T. R. Harrison, W. G. Harrison, Jr. and J. P. Marsh*..... 417
Human Milk Studies. XI. Vitamin G (B_2) Content of Mixed Milk. *Eva Donelson and Icie G. Macy*..... 420
The Vital Capacity of the Lungs at Low Barometic Pressure. *Edward C. Schneider*..... 426
Some Phases of Liver and Gall-Bladder Function. Experiments on Rabbits with Certain Organic Compounds, Particularly Dyes. *Béla Halpert and Milton Theo. Hanke*..... 433
The Action of Certain Drugs on the Nictitating Membrane. *Arturo Rosenblueth*..... 443

No. 3. May, 1932

Further Studies in Muscle Fatigue and Permeability. *Ernst Gellhorn*.... 447
Ion Effects on Muscular Fatigue and Their Independence of Changes in the Metabolism of Muscles. *Ernst Gellhorn*..... 452
Vagal Depression of the Turtle Atrium. A Study of the Integration of Effect of Nerve Impulses. *A. S. Gilson, Jr*..... 459
Studies on the Physiology of Sleep. VI. The Behavior of Decorticated Dogs. *Nathaniel Kleitman and Nelaton Camille*..... 474
The Significance of Fibre Diameter in the Sensory Nerves of the Crustacean Limb. *T. Cunliffe Barnes*..... 481
Studies at High Altitude. Blood Observations on the Indian Natives of the Peruvian Andes. *Alberto Hurtado*..... 487
Changes in Muscle Glycogen Accompanying Physical Training. *H. A. Procter and C. H. Best*..... 506
Further Observations of Rapid Growth of the Albino Rat. *William E. Anderson and Arthur H. Smith*..... 511
A Functional Analysis of the Cervical Sympathetic Nerve Supply to the Eye. *George H. Bishop and Peter Heinbecker*..... 519

On the Mechanism of Certain Ovarian Hormonal Influences on the Central Nervous System. *R. Yorke Herren and H. O. Haterius* 533
The Innervation and Functions of the Nictitating Membrane in the Cat. *Arturo Rosenblueth and Philip Bard* 537
The Action of Ovary-Stimulating Substance of Human Urine of Pregnancy on Uterine Motility in the Unanesthetized Rabbit. *Samuel R. M. Reynolds* 545
The Excretion of Oestrin by Women. *George Van S. Smith and O. Watkins Smith* 553
Reflex Salivary Response in Dehydration (Limited Water Intake, Hyperthyroidism). *L. E. Barron* 559
Nerve-Muscle Chronaxie Measurements and the Phi Gamma Curve. *H. Jasper and T. Perkins* 564
Recovery of the Tongue from Curare Paralysis, Following Prolonged Stimulation of the Hypoglossal Nerve. *T. E. Boyd* 569
Autonomic Discharges Elicited by Physiological Stimuli in Mid-brain Preparations. *Allen D. Keller* 576
An Inquiry into the Basis of the Acetylene Method of Determining the Cardiac Output. *W. F. Hamilton, M. C. Spradlin and H. G. Saam, Jr* 587
Contraction and Evacuation of the Gall Bladder of the Rabbit Produced by Cholecystokinin. *E. L. Walsh* 594
The Calorigenic Action of Lecithin. *D. E. Gregg* 597
Studies on Human Blood Pressure Criteria and Methods. I. The Effects of Partial and Complete Occlusion on Actual Pressures in Compressed Arteries. *Alice B. Maltby and Carl J. Wiggers* 604
The Circulatory Changes During Hyperthermia Produced by Short Radio Waves (Radiothermia). *Carl H. Wiggers and Oscar Orias* 614
The Dynamic Changes in the Ventricles Following Ligation of the Ramus Descendens Anterior. *Oscar Orias* 629
The Lymph Capillaries in the Web of the Frog. *Cecil K. Drinker and Madeleine E. Field* 642
Physiology of the Corpus Luteum. VIII. Interrelationship of Oestrin and the Corpus Luteum as Determined by Their Effects in the Adult Rabbit. *Willard M. Allen* 650
The Physiology of Drainage of Nasal Mucus. III. Experimental Work on the Accessory Sinuses. *Anderson Hilding* 664
The Effects upon Cardiac Musculature of Subthreshold Electrical Currents. *Arthur S. Gilson, Jr. and Hubert B. Peugnet* 671
The Comparative Effects on Carbohydrate Metabolism of Exhausting Motive and Emotive Responses and Exposure to Cold. *H. Silvette and S. W. Britton* 685
Effects of Cortico-Adrenal Extract on Carbohydrate Metabolism in Normal Animals. *S. W. Britton and H. Silvette* 693
The Apparent Prepotent Function of the Adrenal Glands. *S. W. Britton and H. Silvette* 701
Index 715
